PART III - ZONING CERTIFICATES

11-301: CERTIFICATE OF ZONING COMPLIANCE

- A. Authority. The Community Development Director shall have authority to issue Certificates of Zoning Compliance, but only in accordance with the provisions of this Section.
- B. Purpose. The Certificate of Zoning Compliance is intended to serve two general purposes. First, it provides a procedure for reviewing plans for conformance with this Code and a means for evidencing such conformance. Second, it serves as an adjunct to, and this must be filed prior to or with, all other applications filed pursuant to this Code with respect to a specific use or development proposal. When so filed, it serves as a vehicle for routine plan review by the Community Development Director prior to consideration of special requests by other Officials, Boards and Commissions, thus avoiding needless special reviews of defective plans.
- C. Certificate Required. Except where expressly waived by another provision of this Code, unless a Certificate of Zoning Compliance shall have first been obtained from the Community Development Director:
1. The construction, reconstruction, remodeling, alteration or moving of any structure shall not be commenced;
 2. No land vacant on the effective date of this Code shall be used or occupied for any purpose, except the raising of crops;
 3. The grading, excavation or improvement of land preliminary to any construction on or use of such land shall not be commenced; and
 4. Building or other permits pertaining to the construction, reconstruction, remodeling, alteration or moving of any structure or the use of any land or structure shall not be issued by the City.

In any case where a Certificate of Zoning Compliance is not required under this Code, the Community Development Director shall, upon written request, issue a certificate of such fact.

D. [reserved.]

E. Procedure.

1. Application. Applications for Certificates of Zoning Compliance shall be filed in accordance with the requirements of Section 11-201 of this Article.
2. Action on Application. Within ten (10) days following receipt of a completed application for a Certificate of Zoning Compliance, the Community Development Director shall cause the application and related submissions to be reviewed for compliance with this Code and shall inform the applicant whether the application has been granted or denied.

In any case where an application is granted, the Community Development Director shall issue a Certificate of Zoning Compliance, with shall state on its face, in bold type, that:

“THIS CERTIFICATE DOES NOT SIGNIFY BUILDING CODE REVIEW OR APPROVAL AND IS NOT AUTHORIZATION TO UNDERTAKE ANY WORK WITHOUT SUCH REVIEW AND APPROVAL WHERE EITHER IS REQUIRED. SEE OAK FOREST BUILDING CODE FOR DETAILS.

BEFORE ANY STRUCTURE TO WHICH THIS CERTIFICATE IS APPLICABLE MAY BE OCCUPIED OR USED FOR ANY PURPOSE, A CERTIFICATE OF OCCUPANCY MUST BE OBTAINED.”

In any case where an application is denied, the Community Development Director shall state specific reasons therefore and shall cite the specific provisions of this Code upon which such denial is based. If relief from such demand would be available pursuant to a companion application filed in connection with the application for a Certificate of Zoning Compliance, the Community Development Director shall so inform the applicant and shall promptly process such companion application. If such application is approved, the Director shall issue the requested Certificate of Zoning Compliance in accordance with the terms and conditions of such approval.

If relief from the Director’s denial of a Certificate of Zoning Compliance would be available by variation, special permit or site plan review, but no application therefore has been filed, the Community Development Director shall so state and shall refer the applicant to the appropriate provisions of this Code.

3. Contents of Certificate. Each Certificate of Zoning Compliance issued pursuant to this Section shall state the specific use of the subject property for which it is issued; shall identify the specific plans; if any, pursuant to which it is issued; and shall set forth any conditions imposed in connection with any approval granted pursuant to this Code.
 4. Filing of Certificates. Every Certificate issued pursuant to this Section shall be kept on file in the Office of the Community Development Director and shall be a public record open to inspection in accordance with the provisions of the Illinois Freedom of Information Act.
- F. Effect of Issuance of Certificate of Zoning Compliance. The issuance of a Certificate of Zoning Compliance shall not authorize the establishment, expansion or extension of any use nor the development, construction, relocation, alteration or moving of building or structure, but shall merely authorize the preparation, filing and processing of applications for any additional permits and approvals that may be required by the codes and ordinances of the City, including, but not limited to, a Building Permit, a Certificate of Occupancy and Subdivision Approval.
- G. Limitations on Certificates. Subject to an extension of time granted by the Community Development Director pursuant to Subsection 11-101 L of this Article, a Certificate of Zoning Compliance shall become null and void six months after the date on which it was

issued unless within such period construction, reconstruction, remodeling, alteration or moving of a structure is commenced or a use is commenced.

- H. Void Certificates. Any Certificate of Zoning Compliance issued in violation of the provisions of this Code, whether intentionally, negligently or innocently, shall be void ab initio and shall give rise to no rights whatsoever.

11-302: CERTIFICATE OF OCCUPANCY

- A. Authority. The Community Development Director shall have authority to issue Certificates of Occupancy; provided, however, that no such certificate shall be issued except in accordance with the provisions of this Section and the provisions of the Oak Forest Municipal Code governing development, building and related matters.
- B. Purpose. For the purposes of this Code, the Certificate of Occupancy provides a procedure for the inspection of completed premises to ensure their compliance with this Code and approved plans prior to commencement of the use or occupancy of such premises. The Certificate may also evidence compliance with other provisions of the Oak Forest Municipal Code, as set forth in those provisions.
- C. Certificate Required. Unless a Certificate of Occupancy shall have first been obtained certifying compliance with the provisions of this Code:
1. No structure, or addition thereto, constructed, reconstructed, remodeled, altered or moved after the effective date of this Code shall be occupied or used for any purpose;
 2. No land vacant as of the effective date of this Code shall be used or occupied for any purpose, except the raising of crops;
 3. Except for changes involving only substitution of occupants in existing dwelling units, no use or occupancy of any land or structure shall be changed to any other use or occupancy, whether or not construction, remodeling, alteration or moving is involved.
- D. Procedure.
1. Application. Where no Certificate of Zoning Compliance is required, applications for Certificates of Occupancy shall be filed in accordance with the requirements of Section 11-201 of this Article.

Where a Certificate of Zoning Compliance has been issued, the application for that Certificate shall also be treated as the application for a Certificate of Occupancy and shall be processed as such at such time as the applicant notifies the Community Development Director in writing that the subject structure or use is ready for a Certificate of Occupancy in accordance with the Certificate of Zoning Compliance.

In any case where the structure or use involved has been constructed or established pursuant to any approval granted pursuant to this Code, the application shall be accompanied by “as built” plans depicting the structure or use as built and bearing the

certificate of a surveyor, engineer, architect, land planner or owner-designer, as may be appropriate, certifying that the structure or use as built conforms in all respects to the approval granted.

2. Action on Application. Within ten (10) days following the receipt of a completed application, the Community Development Director shall cause the subject structure or premises to be inspected and shall take on the following actions based on such inspection:
 - (a) If all work has been completed and the structure and use thereof are in full and complete compliance with all applicable provisions of this Code, other relevant codes and ordinances of the City, the applicant's plans as approved and any conditions attached to any approval issued pursuant to this Code, the Community Development Director shall issue a Certificate of Occupancy;
 - (b) If, however, all work is not complete or is in any manner not in full compliance with all applicable requirements, the Community Development Director shall deny the application and shall inform the applicant in writing of the specific deficiencies on which such denial is based, citing the particular provisions of the codes and ordinances of the City, the particular items in the applicant's plans or the applicable special approval conditions with respect to which compliance is lacking.
 3. Contents of Certificates. In addition to the matters required to be contained in a Certificate of Occupancy pursuant to other applicable provisions of the Oak Forest Municipal Code, each Certificate of Occupancy issued pursuant to this Section shall state the specific use of the subject property for which it is issued; shall identify the specific plans, if any, pursuant to which it is issued and shall set forth any conditions imposed in connection with any approval granted pursuant to this Code.
 4. Filing of Certificates. Every Certificate issued pursuant to this Section shall be kept on file in the Office of the Community Development Director and shall be a public record open to inspection pursuant to the provisions of the Illinois Freedom of Information Act.
- E. Temporary Certificate of Occupancy. Notwithstanding the provisions of Paragraph D2 above, where construction, reconstruction, remodeling or alteration of a structure does not require the vacating of the structure, or where parts of the structure are finished and ready for occupancy before the completion of such construction, reconstruction, remodeling or alteration and are certified upon inspection to be safe for use or occupancy and to be in full compliance with all applicable provisions of this Code, other relevant codes and ordinances of the City, the applicant's plans as approved and any conditions attached to any approvals issued pursuant to this Code with respect to such structure or its premises, a Temporary Certificate of Occupancy may be issued for a period not to exceed six (6) months from its date, which Temporary Certificate shall bear on its face, in bold type, a statement of its temporary nature; provided, however, that no such temporary

certificate shall be issued pursuant to this Code unless said structure also qualifies for a Temporary Certificate of Occupancy issued pursuant to the Oak Forest Building Code.

- F. Certificate of Occupancy for Existing Uses. The Community Development Director may issue a Certificate of Occupancy certifying the lawful existence and use of any existing structure or use in the same manner, and subject to the same standards and limitations, as authorized by this Section with respect to new structures and uses. Such Certificate shall be prima facie evidence of the facts contained in it with respect to any structure or use as of the date of its issue and remain effective for that purpose for so long as neither the use or structure nor the applicable provisions of this Code are changed.
- G. Certificate of Occupancy for Legal Nonconformities. The Community Development Director may issue a Certificate of Occupancy certifying the lawful existence and use of any nonconforming use, structure, lot or sign in the same manner, and subject to the same standards and limitations, as authorized by this Section with respect to new structures and uses and subject also to the additional standards and limitations set forth in Paragraph 10-101 E3 of this Code.
- H. Void Certificates. Any Certificate of Occupancy issued in violation of the provisions of this Code, whether intentionally, negligently, or innocently, shall be void ab initio and shall give rise to no rights whatsoever.-__

PART IV - INTERPRETATIONS, APPEAL AND VARIATIONS

11-401: INTERPRETATIONS

- A. Authority. The Community Development Director may, subject to the procedures, standards and limitations of this Section, render interpretations, including use interpretations, of the provisions of this Code and of any rule or regulation issued pursuant to it.
- B. Purpose. The interpretation authority established by this Section is intended to recognize that the provisions of this Code though detailed and lengthy, cannot possibly address every specific situation to which they may have to be applied. Many such situations can, however, be readily addressed by an interpretation of the specific provisions of this Code in light of the general and specific purposes for which those provisions have been enacted. Because the interpretation authority herein established is an administrative rather than a legislative authority, it is not intended to add to or change the essential content of this Code but, rather, it is not intended only to allow authoritative application of that content to specific cases.
- C. Parties Entitled to Seek Interpretations. Applications for interpretations may be filed by any person having an interest in the circumstances giving rise to the need for an interpretation; provided, however, that interpretations shall not be sought by any person based solely on hypothetical facts or where the interpretation would have no effect other than as an advisory opinion.
- D. Procedure.
1. Application. Applications for interpretations of this Code shall be filed in accordance with the requirements of Section 11-301 of this Article.
 2. Action on Application. Within 35 days following the receipt of a properly completed application for interpretation, the Community Development Director shall inform the applicant in writing of his interpretation, stating the specific precedent, reasons and analysis upon which the determination is based.

The failure of the Community Development Director to act within 35 days, or such further time to which the applicant can agree, shall be deemed to be a decision denying the application rendered on the day following such 35 day period.
 3. Appeal. Appeals from interpretations rendered by the Community Development Director may be taken to the Zoning Board of Appeals as provided in Section 11-402 of this Article.
- E. Standards for Use Interpretations. The following standards shall govern the Community Development Director, and the Planning and Zoning Commission on appeals from the Community Development Director, in issuing use interpretations:

1. No use interpretation shall be given with respect to the R1 through R6 Residential District.
 2. Any use defined in Section 12-206 of this Code shall be interpreted as therein defined.
 3. No use interpretation shall permit a use listed as a permitted or special permit use in any district to be established in any district in which such use is not so listed.
 4. No use interpretation shall permit any use in any district unless evidence shall be presented that demonstrates that it will comply with each use limitation established for that particular district.
 5. No use interpretation shall permit any use in a particular district unless such use is substantially similar to other uses permitted in such district and is more similar to such other uses than to uses permitted or specially permitted in a more restrictive district.
 6. If the proposed use is most similar to a use permitted only as a special permit use in the district in which it is proposed to be located, then any use interpretation permitting such use shall be conditioned on the issuance of a Special Use Permit for such use pursuant to Section 11-502 of this Article.
 7. No use interpretation shall permit the establishment of any use that would be inconsistent with the statement of purpose of the district in question.
 8. Subject to the foregoing conditions and limitations, in rendering use interpretations the Community Development Director shall be guided by the North American Industry Classification System, as amended by the City (see Appendix A) and the use classification methodology used therein.
- F. Effect of Favorable Use Interpretation. No use interpretation finding a particular use to be permitted or specially permitted in a particular district shall authorize the establishment of such use nor the development, construction, reconstruction, alteration or moving of any building or structure but shall merely authorize the preparation, filing and processing of Applications for any Permits and Approvals that may be required by the codes and ordinances of the City, including, but not limited to, a Special Use Permit, a Certificate of Zoning Compliance, a Building Permit, a Certificate of Occupancy, Subdivision Approval and Site Plan Approval.
- G. Limitations on Favorable Use Interpretations. Subject to an extension of time granted by the Community Development Director pursuant to Subsection 11-101 L of this Article, no use interpretation finding a particular use to be permitted or specially permitted in a particular district shall be valid for a period longer than six months from the date of issue unless a building permit is issued, and construction is actually begun within that period and is thereafter diligently pursued to completion, or a Certificate of Occupancy is obtained and a use commenced within that period.

A use interpretation finding a particular use to be permitted or specially permitted in a particular district shall be deemed to authorize only the particular use for which it was issued, and such permit shall not be deemed to authorize any allegedly similar use for which a separate use interpretation has not been issued. Such permit shall automatically expire and cease to be of any force or effect if the particular use for which it was issued shall, for any reason, be discontinued for a period of six consecutive months or more.

11-402: APPEALS

- A. Authority. Except as provided in Subparagraph 11-504 E1(d) of this Article with regard to site plan review appeals, the Planning and Zoning Commission shall hear and decide appeals from, and review orders, decisions, determinations, or the failure to act, of the Community Development Director acting pursuant to his authority and duties under this Code and to that end the Board of Appeals shall have the same powers and be subject to the same standards and limitations as the Community Development Director with respect to any order, decision or determination being appealed.
- B. Purpose. The appeal procedure is provided as a safeguard against arbitrary, ill-considered or erroneous administrative decisions. It is intended to avoid the need for resort to legal action by providing a local procedure for the review and correction of administrative errors. It is not, however, intended as a means to subvert either the clear purposes, intent or meaning of this Code or the rightful authority of the Community Development Director to enforce this Code. To these ends, the reviewing body should give all proper deference to the spirit and language of this Code and to the reasonable interpretations of those charged with its administration.
- C. Parties Entitled to Appeal. An application for appeal to the Planning and Zoning Commission may be filed by any person aggrieved or adversely affected by an order, decision, determination or failure to act of the Community Development Director acting pursuant to his authority and duties under this Code.
- D. Procedure.
1. Application. An application for appeal to the Planning and Zoning Commission shall be filed not later than 45 days following the action being appealed and in accordance with the requirements of Section 11-201 if this Article.
 2. Action by Community Development Director. Upon receipt of a properly completed application for an appeal, the Community Development Director shall forthwith transmit to the Planning and Zoning Commission the application together with all papers constituting the record upon which the action appealed from was taken.
 3. Public Hearing. A public hearing shall be set, noticed and conducted by the Board of Appeals in accordance with Section 11-203 of this Article.
 4. Action by Planning and Zoning Commission. Within thirty (30) days following the close of the public hearing the Planning and Zoning Commission shall render a decision on the appeal in the manner and form specified in Subsection 11-103 B

of this Article. Such decision may reverse, affirm or modify, in whole or in part, the action appealed from and may include such order or determination as, in the opinion of the Planning and Zoning Commission, is proper to be made in the premises.

The failure of the Planning and Zoning Commission to act within such thirty (30) days, or such further time to which the applicant may agree, shall be deemed to be a decision denying the appeal.

- E. Stay of Proceedings. An application for appeal properly filed pursuant to Subsection D above shall stay all proceedings in the furtherance of the action appealed from, unless the Community Development Director certifies to the Planning and Zoning Commission after the application for appeal has been filed with the Director that, by reason of facts stated in the certificate, a stay would, in the Director's opinion, cause imminent peril to life or property, in which case the proceedings shall not be stayed other than by a restraining order, which may be granted by the Planning and Zoning Commission or by the Circuit Court on application, upon reasonable written notice to the Community Development Director and on due cause shown.
- F. Right to Grant Variation in Deciding Appeals. In any case where the application for appeal is accompanied by an application for variation in accordance with Section 11-403 of this Article, the Planning and Zoning Commission shall have the authority to grant, as part of the relief, a variation but only in strict compliance with each provision of said Section 11-403.
- G. Conditions and Limitations on Rights Granted by Appeal. In any case where this Code imposes conditions and limitations upon any right, any such right granted by the Planning and Zoning Commission on appeal shall be subject to such conditions and limitations in the same manner and to the same extent as if secured without the necessity of an appeal.

11-403: VARIATIONS

- A. Authority. The Planning and Zoning Commission shall have the authority to grant variations from the provisions of this Code under Paragraph E1 of this Section. The City Council shall have the authority to grant variations under Paragraph E2 of this Section.
- B. Purpose. The variation procedure is intended to provide a narrowly circumscribed means by which relief may be granted from unforeseen particular applications of this Code that create practical difficulties or particular hardships. When such difficulties or hardships are more appropriate for remedy, if at all, pursuant to other provisions of this Article XI, the variation procedure is necessarily inappropriate.
- C. Parties Entitled to Seek Variations. Applications for variations may be filed by the owner of, or any person having a contractual interest in, the subject property.
- D. Procedure.
 - 1. Application. Applications for variations shall be filed in accordance with the requirements of Paragraph 11-201 E5 of this Article.

2. Public Hearing. A public hearing shall be set, noticed and conducted by the Planning and Zoning Commission in accordance with Section 11-203 of this Article.
3. Action by Planning and Zoning Commission. In the cases specified in Paragraph 11-403 E1, within 21 days following the close of the public hearing, the Planning and Zoning Commission shall render its decision, granting or denying the variation, in the manner and form specified by Subsection 11-103 B of this Article.

The failure of the Planning and Zoning Commission to act within 21 days, or such further time to which the applicant may agree, shall be deemed to be a decision denying the variation.

In the cases specified in Paragraph D4 of this Subsection and in Paragraph 11-403 E2, the Planning and Zoning Commission shall transmit to the City Council its recommendation in a form specified by Subsection 11-103 B of this Article, recommending either granting the application for a variation; granting the application subject to conditions; or denying the application.

4. Action by City Council. Within sixty (60) days following the receipt of the recommendation of the Planning and Zoning Commission, or its failure to act as above provided, the City Council shall either deny the application or, by ordinance duly adopted, shall grant the variation, with or without modifications or conditions.
5. Special Procedures in Connection With Other Applications. Whenever any other application is filed pursuant to this Code or the Oak Forest Subdivision and Development Code (2014) as a companion to an application for a variation and such companion application requires final approval by the City Council, the authority to hear and decide the application for variation otherwise delegated to the Planning and Zoning Commission pursuant to this Section may, pursuant to the request of the applicant or the Community Development Director made at the time of the filing of the applicant's application, be reserved to the City Council. Whenever any application for a variation requires final approval by the City Council, the authority to decide the application for variation shall be reserved to the City Council. For such purposes, the City Council shall have all of the authority granted to, and shall be subject to all of the limitations imposed on, the Planning and Zoning Commission by this Section; provided, however, that the provisions governing public notice and hearing of, and action on, the companion application or the provisions of Paragraphs D2 and D3 of this Section that provide the broadest public notice shall govern.

E. Permitted Variations.

1. Permitted Variations as approved by the Planning and Zoning Commission. The Planning and Zoning Commission may vary the provisions of this Code in the following cases and in no others, in accordance with Subsection D above.

- (a) To reduce the dimension of any required yard or setback of a lot of record existing at the time that the application for the variation is submitted;
- (b) To permit the use of a lot or lots for a use otherwise prohibited solely because of the insufficient area or width of the lot or lots, but in no event shall the respective area and width of the lot or lots be less than 90 percent of the required area and width, and only on a lot of record existing at the time that the application for the variation is submitted;
- (c) To increase the maximum allowable height of any fence;
- (d) To reduce by not more than 25 percent, or one space, whichever is greater, the minimum number of off-street parking spaces or loading spaces otherwise required;
- (e) To increase by not more than one sign the maximum number of signs of any functional type otherwise allowed;
- (f) To allow illumination of residential recreational facilities;
- (g) To allow the moving of a pre-code structure to an extent or in a manner not permitted by Subsection 10-104 B of this Code;
- (h) To allow the otherwise prohibited restoration of a partially damaged or destroyed pre-code structure or structure devoted to a nonconforming use;
- (i) To allow yard variations in excess of those permitted by Section 10-105 of this Code in connection with the development of a legal nonconforming lot of record;
- (j) To increase, by not more than five (5) feet or not more than one (1) story or both, the maximum allowable height of a principal residential structure in the R4 Single Family Residential District (provided that in no event shall the maximum allowable height with such a variation exceed 35 feet or three stories, whichever is less) where such structure meets all of the following conditions: (i) it is to be located in whole or in part in the flood plain, (ii) it is a replacement for a residential structure that was destroyed or damaged, by any means not within the control of the owner thereof, to the extent of fifty percent or more of the market value of the structure, (iii) it is a replacement for a residential structure that had a basement prior to such damage or destruction, and (iv) a basement cannot be constructed in the replacement structure because the lowest floor of such structure is required by this Code or other applicable law to be constructed at or above the base flood elevation.
- (k) To reduce the bulk, yard, setback and space requirements when a zoning lot, whether vacant or legally used, is reduced in size, by reason of the exercise of the right of eminent domain by an authorized governmental body or by reason of a conveyance made under the specific threat of an

eminent domain proceeding, so that the remainder of said zoning lot, or any structure or use on said zoning lot, does not conform with one or more of such bulk, yard, setback or space requirements of the district in which said zoning lot is located.

- (l) To permit the use of one or more residential lots for a use otherwise prohibited solely because of the insufficient width of the lot or lots, where:
 - (i) The application for a proposed subdivision is submitted concurrently with the application for variation;
 - (ii) The width of the lot or lots for which the variation is sought is not less than 75 percent of the required width;
 - (iii) The area of the lots for which a variation is sought is not less than 115 percent of the required lot area; and
 - (iv) The lot width of the lots created by the proposed subdivision is not less than the lot width of 75 percent of the remaining lots along the same frontage as the proposed new lots.

Any variation granted pursuant to this Subparagraph shall run only to the applicant, as a personal privilege.

- (m) To increase the maximum height of an alteration to, or enlargement of, a principal single-family detached residential pre-code structure located in a single-family residential district authorized pursuant to Paragraph 10-104 B2 of this Code, but in no event to a height exceeding the otherwise applicable district height limitations.
- (n) To reduce the minimum number of off-street parking spaces required to serve a new non-residential use within a structure located within a Special Parking Area in the Gateway Redevelopment Sub-Area.
- (o) To permit fences in front yards of properties within single family residential districts no greater than three (3) feet in height.
- (p) To permit fences in front and corner yards of properties within all other districts no greater than three (3) feet in height.
- (q) To allow a setback for a ground sign less than that required by Section 9-106 of this Code.
- (r) To allow the area or height of a sign to be increased by up to 25% of the maximum allowable height or facing.

2. Permitted Variations as approved by the City Council. Subject to the prohibitions set forth in Paragraph E4 below, and subject to the other provisions of this Section, the City Council may vary the provisions of this Code in the following cases, in accordance with Subsection D above:

- (a) To permit the use of one or more residential lots for a use otherwise prohibited solely because of the insufficient width of the lot or lots, where:
 - (i) The lot or lots for which the variation is sought are the result of a proposed subdivision that includes one or more existing nonconforming lots of record;
 - (ii) The application for a proposed subdivision is submitted concurrently with the application for variation;
 - (iii) The width of the lot or lots for which the variation is sought is not less than 75 percent of the required width;
 - (iv) The area of the lots for which a variation is sought is not less than 115% of the required lot area;
 - (v) The creation of new lots does not increase the degree of nonconformity as to width that exists in the existing nonconforming lot or lots at the time of application; and
 - (vi) The number of lots for which the variation is sought does not exceed either the number of nonconforming lots to be subdivided for the proposed subdivision or thirty percent (30%) of the total number of lots created by the proposed subdivision, whichever is less.

Any variation granted pursuant to this Subparagraph shall run only to the applicant, as a personal privilege.

- (B) To permit a reduction of the required lot width for property that is annexed to the City pursuant to an annexation agreement that is duly authorized by the Corporate Authorities in the manner required by the Illinois Municipal Code
- (c) To reduce the minimum lot area of a zoning lot for an automobile dealership, as required by Subsection 9-202(B) of this code by twenty (20) percent; or to reduce the minimum frontage of a zoning lot for an automobile dealership, as required by Subsection 9-202(B) of this code by ten (10) percent.
- (d) To increase, by not more than one (1) story, the maximum allowable height of a principal structure in any non-residential district, provided that the increase in height by one (1) story shall not require a related increase to the maximum allowable height in feet of the same district.
- (e) To permit a variation to any other provision of this Code.

3. Administrative Variations. A request to reduce the minimum front, side or rear yard setback requirement, or to reduce the maximum height requirement of accessory structures, by less than twelve (12) inches may be approved by the Community Development Director or his/her designee.

4. Prohibited Variations. Notwithstanding any other provision of this Section, no variation shall be granted that:

- (a) Is intended as a temporary measure only; or
- (b) Is greater than the minimum variation necessary to relieve the particular hardship or practical difficulty demonstrated by the applicant.

F. Standards for Variations.

1. General Standard. No variation shall be granted pursuant to this Section unless the applicant shall establish that carrying out the strict letter of the provisions of this Code would create a particular hardship or a practical difficulty. Such a showing shall require proof that the variation being sought satisfies each of the standards set forth in this Subsection F.
2. Unique Physical Condition. The subject property is exceptional as compared to other lots subject to the same provision by reason of a unique physical condition, including presence of an existing use, structure or sign, whether conforming or nonconforming; irregular or substandard shape or size; exceptional topographical features; or other extraordinary physical conditions peculiar to and inherent in the subject property that amount to more than a mere inconvenience to the owner and that relate to or arise out of the lot rather than the personal situation of the current owner of the lot.
3. Not Self-Created. The aforesaid unique physical condition is not the result of any action or inaction of the owner or his predecessors in title and existed at the time of the enactment of the provisions from which a variation is sought or was created by natural forces or was the result of governmental action, other than the adoption of this Code, for which no compensation was paid.
4. Denied Substantial Rights. The carrying out of the strict letter of the provision from which a variation is sought would deprive the owner of the subject property of substantial rights commonly enjoyed by owners of other lots subject to the same provision.
5. Not Merely Special Privilege. The alleged hardship or difficulty is not merely the inability of the owner or occupant to enjoy some special privilege or additional right not available to owners or occupants of other lots subject to the same provision, nor merely an inability to make more money from the sale of the subject property; provided, however, that where the standards herein set out exist, the existence of an economic hardship shall not be a prerequisite to the grant of an authorized variation.
6. Code and Plan Purposes. The variation would not result in a use or development of the subject property that would not be in harmony with the general and specific purposes for which this Code and the provision from which a variation is sought were enacted or the general purpose and intent of the Official Comprehensive Plan.
7. Essential Character of the Area. The variation would not result in a use or development on the subject property that:

- (a) Would be materially detrimental to the public welfare or materially injurious to the enjoyment, use, development value of property or improvements permitted in the vicinity;
 - (b) Would materially impair an adequate supply of light and air to the properties and improvements in the vicinity;
 - (c) Would substantially increase congestion in the public streets due to traffic or parking;
 - (d) Would unduly increase the danger of flood or fire;
 - (e) Would unduly tax public utilities and facilities in the area; or
 - (f) Would endanger the public health and safety.
8. No Other Remedy. There is no means other than the requested variation by which the alleged hardship or difficulty can be avoided or remedied to a degree sufficient to permit a reasonable use of the subject property.
- G. Variation Less Than Requested. A variation less than or different from that requested may be granted when the record supports the applicant's right to some relief but not to the relief requested.
- H. Conditions on Variations. The Zoning Board of Appeals may impose such specific conditions and limitations concerning use, construction, character, location, landscaping, screening and other matters relating to the purposes and objectives of this Code upon the premises benefited by a variation as may be necessary or appropriate to prevent or minimize adverse effects upon other property and improvements in the vicinity of the subject property or upon public facilities and services. Such conditions shall be expressly set forth in the resolution granting the variation. Violation of any such condition or limitation shall be a violation of this Code and shall constitute grounds for revocation of the variation.
- I. Affidavit of Compliance with Conditions; Fee. Whenever any variation authorized pursuant to this Section is made subject to conditions and limitations to be met by the applicant, the applicant shall upon meeting such conditions file an affidavit with the Community Development Director so stating. Such affidavit shall be accompanied by a nonrefundable fee, to be fixed in each case by the Community Development Director, to recover the City's actual direct cost of an inspection to verify that such conditions and limitations have been met.
- J. Effect of Grant of Variation. The grant of a variation shall not authorize the establishment or extension of any use nor the development, construction, reconstruction, alteration or moving of any building or structure but shall merely authorize the preparation, filing and processing of applications for any permits and approval that may be required by the Codes and Ordinances of the City, including, but not limited to, a Certificate of Zoning Compliance, a Building Permit, a Certificate of Occupancy, Subdivision Approval and Site Plan Approval.

K. Limitations on Variations. Subject to an extension of time granted by the Community Development Director or City Council pursuant to Subsection 11-101 L of this Article, no variation from the provisions of this Code shall be valid for a period longer than 180 days, and no variation from the provisions of this Code that is granted concurrently with a special permit shall be valid for a period longer than one year, unless a building permit is issued and construction has actually begun within that period and is thereafter diligently pursued to completion or unless a Certificate of Occupancy is issued and a use is commenced within that period. Variations granted pursuant to Subparagraph 11-403 E2(a) of this Article shall be valid for a period that is coterminous with the period that the tentative subdivision plat is valid under the Oak Forest Subdivision and Development Code (2014), and shall be deemed final variations that run with the land only after recordation of a duly approved final subdivision plat.

A variation shall be deemed to authorize only the particular construction or development for which it was issued and shall automatically expire and cease to be of any force or effect if such construction or development shall be removed and not replaced within six months following such removal.

PART V - AMENDMENTS AND SPECIAL APPROVALS

11-501: AMENDMENTS

- A. Authority. This Code and the Zoning Map may be amended from time to time by ordinance duly enacted by the City Council in accordance with the procedures set out in this Section.
- B. Purpose. The amendment process established by this Section is intended to provide a means for making changes in the text of this Code and in the Zoning Map that have more or less general significance or application. It is not intended to relieve particular hardships nor to confer special privileges or rights. Rather, it is intended as a tool to adjust the provisions of this Code and Zoning Map in light of changing, newly discovered or newly important conditions, situations or knowledge.
- C. Parties Entitled to Seek Amendments. An application for an amendment may be filed by the City Council, the Planning and Zoning Commission, the owner of, or any person having a contractual interest in, any property to be affected by a proposed amendment to the Zoning Map, or any person interested in a proposed amendment to the text of this Code.
- D. Procedure.
1. Formal Application. A formal application for an amendment to this Code or the Zoning Map shall be filed in accordance with the requirements of Paragraph 11-201 E6 of this article for a code amendment and 11-201E8 of this Article for a map amendment. Except as expressly provided otherwise herein, no application for an amendment to this Code or to the Zoning Map shall be filed unless the Community Development Director shall have first reviewed an application for such amendment in accordance with Subsection 11-101(F) of this Code.
 2. Referral. The failure of the Community Development Director to act on a properly filed and completed formal application within 30 days of his or her receipt thereof shall be deemed to be a decision to refer the application pursuant to this Subparagraph.
 3. Public Hearing. In any case where a formal application for an amendment to this Code or the Zoning Map is referred by the Community Development Director pursuant to Subsection 11-101(F), a public hearing shall be set, noticed, and conducted by the Planning and Zoning Commission in accordance with Section 11-203 of the Article.
 4. Action by Planning and Zoning Commission. Within 21 days following the conclusion of the public hearing, the Planning and Zoning Commission shall transmit to the City Council its recommendation in the form specified by Subsection 11-104 B of this Article.

The failure of the Commission to act within 21 days following the conclusion of such hearing, or such further time to which the applicant may agree, shall be

deemed a recommendation for the denial of the proposed amendment as submitted.

5. Action by City Council; Protest. Within sixty (60) days following the receipt of the recommendation of the Plan Commission, or its failure to act as above provided, the City Council shall either deny the application or, by ordinance duly adopted, adopt the proposed amendment, with or without modifications; provided, however, that in the event a duly signed and acknowledged protest against a proposed amendment is filed with the City Clerk before the adoption of such amendment by the owners of twenty percent (20%) or more of the frontage to be affected by the proposed amendment, or by the owners of twenty percent (20%) or more of the frontage immediately adjoining or across an alley therefrom, or by the owners of twenty percent (20%) or more of the frontage directly opposite the frontage to be affected, such amendment shall not be passed except by a two-thirds vote of the City Council.

The failure of the City Council to act within sixty (60) days or such further time to which the applicant may agree, shall be deemed to be a decision denying the application.

- E. Standard for Amendments. The wisdom of amending the Zoning Map or the text of this Code is a matter committed to the legislative discretion of the City Council and is not dictated by any set standard. However, in determining whether a proposed amendment should be granted or denied, the Board should be guided by the principle that its power to amend this Code is not an arbitrary one but one that may be exercised only when the public good demands or requires the amendment to be made. In considering whether that principle is satisfied in any particular case, the Board should weigh the following factors:

1. The consistency of the proposed amendment with the purposes of this Code.
2. The community need for the proposed amendment and for the uses and development it would allow.
3. If a specific parcel of property is the subject of the proposed amendment, then the following factors:
 - (a) Existing Uses And Classifications: the existing uses and zoning classifications for properties in the immediate vicinity of the subject property.
 - (b) Trend Of Development: the trend of development in the immediate vicinity of the subject property, including changes, if any, in such trend since the subject property was placed in its present zoning classification.
 - (c) Diminution Of Values: the extent to which the value of the subject property is diminished by the existing zoning classification applicable to it.

- (d) Increase In Health, Safety, And Welfare: the extent, to which any such diminution in value is offset by an increase in the public health, safety, and welfare.
- (e) Effects On Adjacent Properties: the extent to which the use and enjoyment of adjacent properties would be affected by the proposed amendment.
- (f) Value Of Adjacent Properties: the extent to which the value of adjacent properties would be affected by the proposed amendment.
- (g) Future Development: the extent to which the future orderly development of adjacent properties would be affected by the proposed amendment.
- (h) Suitability Of Text Amendment: the suitability of the proposed text amendment for the zoning district in which the amendment is being proposed.
- (i) Ingress And Egress: the availability, where relevant, of adequate ingress to and egress from the subject property and the extent to which traffic conditions in the immediate vicinity of the subject property would be affected by the proposed amendment.
- (j) Utilities And Services: the availability, where relevant, of adequate utilities and essential public services to the subject property to accommodate the uses permitted or permissible under its present zoning classification.
- (k) Length Of Vacancy: the length of time that the subject property has been vacant, considered in the context of the pace of development in the vicinity of the subject property.
- (l) Positive Effect: the proposed amendment creating a positive effect for the zoning district, its purposes, and adjacent properties shall be placed before the benefits of the petitioner.

11-502: SPECIAL USE PERMITS

- A. Authority. The City Council may, in accordance with the procedures and standards set out in this Section and by ordinance duly adopted, grant special use permits authorizing the development of uses listed as special uses in the regulations applicable to the district in which the subject property is located.
- B. Purpose. Special uses are those uses having some special impact or uniqueness that require a careful review of their location, design, configuration and special impact to determine, against fixed standards, the desirability of permitting their establishment on any given site. They are uses that may or may not be appropriate in a particular location depending on a weighing, in each case, of the public need and benefit against the local impact and effect.

C. Parties Entitled to Seek Special Use Permits. An application for a special use permit may be filed by the owner of, or any person having a contractual interest in, the subject property.

D. Procedure.

1. Application. An application for a special use permit shall be filed in accordance with the requirements of Paragraph 11-201 E7 of this Article. Except as expressly provided otherwise herein, no application for a special use permit shall proceed to a public hearing until unless the Community Development Director has first reviewed the said application in accordance with Subsection 11-101(F) and determined that it is in proper form.
2. Board Referral. The failure of the Community Development Director to act on a properly filed and completed application within 30 days of his or her receipt thereof shall be deemed to be a decision to refer the application pursuant to this Subparagraph.
3. Public Hearing. In any case where a formal application for a special use permit is referred by the Community Development Director pursuant to Subsection 11-101(F), a public hearing shall be set, noticed and conducted by the Planning and Zoning Commission in accordance with Section 11-203 of this Article.
4. Action by Planning and Zoning Commission. Within 21 days following conclusion of the public hearing, the Planning and Zoning Commission shall transmit to the City Council its recommendation in a form specified by Subsection 11-104 B of this Article, recommending either granting the application for a special use permit; granting the application subject to conditions, as specified in Subsection F below; or denying the application.

The failure of the Planning and Zoning Commission to act within 21 days, or such further time to which the applicant may agree, shall be deemed a recommendation for the denial of the proposed special use permit.

5. Action by City Council; Protest. Within sixty (60) days following the receipt of the recommendation of the Planning and Zoning Commission, or its failure to act as above provided, the City Council shall either deny the application or, by ordinance duly adopted, shall grant the special use permit, with or without modifications or conditions; provided, however, that in the event a duly signed and acknowledged protest against the proposed special use permit is fled with the City Clerk by the owners of twenty percent (20%) or more of the frontage to be affected by the proposed special use permit, or by the owners of twenty percent (20%) or more of the frontage immediately adjoining or across an alley therefrom, or by the owners of twenty percent (20%) or more of the frontage directly opposite the frontage to be affected, such ordinance shall not be adopted except by a two-thirds vote of the City Council.

E. Standards for Special Use Permits.

1. General Standards. No special use permit shall be recommended or granted pursuant to this Section unless the applicant shall establish that:
 - (a) Code and Plan Purposes. The proposed use and development will be in harmony with the general and specific purposes for which this Code was enacted and for which the regulations of the district in question were established and with the general purpose and intent of the Official Comprehensive Plan.
 - (b) No Undue Adverse Impact. The proposed use, drainage and development will not have a substantial or undue adverse effect upon adjacent property, the character of the area or the public health, safety and general welfare.
 - (c) No Interference With Surrounding Development. The proposed use and development will be constructed, arranged and operated so as not to dominate the immediate vicinity or to interfere with the use and development of neighboring property in accordance with the applicable district regulations.
 - (d) Adequate Public Facilities. The proposed use and development will be served adequately by essential public facilities and services such as streets, public utilities, drainage structures, police and fire protection, refuse disposal, parks, libraries, and schools, or the applicant will provide adequately for such services.
 - (e) No Traffic Congestion. The proposed use and development will not cause undue traffic congestion nor draw significant amounts of traffic through residential streets.
 - (f) No Destruction of Significant Features. The proposed use and development will not result in the destruction, loss or damage of natural, scenic or historic feature of significant importance.
 - (g) Compliance With Standards. The proposed use and development complies with all additional standards imposed on it by the particular provision of this Code authorizing such use.
2. Special Standards for Specified Special Uses. Where the district regulations authorizing any special use in a particular district impose special standards to be met by such use in such district, a permit for such use in such district shall not be recommended or granted unless the applicant shall establish compliance with such special standards.
3. Considerations. In determining whether the applicant's evidence establishes that the foregoing standards have been met, the Planning and Zoning Commission shall consider:
 - (a) Public Benefit. Whether, and to what extent, the proposed use and development at the particular location requested is necessary or desirable

to provide a service or a facility that is in the interest of the public convenience or that will contribute to the general welfare of the neighborhood or community; and

- (b) Mitigation of Adverse Impacts. Whether, and to what extent, all steps possible have been taken to minimize any adverse effects of the proposed use and development on the immediate vicinity through building design, site design, landscaping and screening.

F. Conditions; Periodic Review; Term.

1. Conditions on Special Use Permits. In order to prevent or minimize substantial or undue adverse effects upon neighboring and adjacent properties and improvements, substantial or undue or upon public facilities and services, the Plan Commission may recommend, and the City Council may impose, and expressly include in the ordinance granting a special use permit, conditions and limitations upon the premises benefited by a special use permit. Such conditions, restrictions, and limitations may include, without limitation, the following:
 - (a) limitations and restrictions of the use of the subject property;
 - (b) restrictions on construction activity that will occur on and around the subject property;
 - (c) conditions concerning the character and design of the proposed use and development;
 - (d) the location of the use within the subject property;
 - (e) the provision of landscaping and screening, with specificity as to design, quantity, quality, size and location;
 - (f) restrictions on the hours of operation of the use;
 - (g) a requirement that the subject property be developed and used in strict accordance with a site plan that is attached to the ordinance granting the special permit; and
 - (h) any other matters relating to the purposes and objectives of this Code.
2. Violation of Conditions. Violation of any of the conditions imposed pursuant to Paragraph 11-502 F1 of this Code shall be a violation of this Code and shall constitute grounds for revocation of the special use permit.
3. Periodic Review. The Planning and Zoning Commission may recommend, and the City Council may impose, a requirement that the special use permit be publicly reviewed periodically pursuant to and in accordance with such procedures as are set forth in the ordinance granting the special use permit. In every instance, such procedures shall provide the applicant with advance notice of, and an opportunity to be heard at, such periodic review.

4. Term of Special Use Permit. Because of the unique operational nature, and potential unknown adverse impacts, of certain special uses, the Planning and Zoning Commission may recommend, and the City Council may impose, a term limitation on the duration of certain special uses. Such term limitation shall (a) be set forth in the ordinance granting the special use permit and (b) shall be subject to renewal in accordance with Subsection 11-502 L of this Code.

- G. Affidavit of Compliance With Conditions. Whenever any special use permit granted pursuant to this Section is made subject to conditions or limitations to be met by the applicant, the applicant shall, upon meeting such conditions, file an affidavit with the Community Development Director so stating. Such affidavit shall be accompanied by a nonrefundable fee, to be fixed in each case by the Community Development Director, to recover the City's actual direct cost of an inspection to verify that such conditions and limitations have been met.

- H. Effect of Issuance of a Special Use Permit. The granting of a special use permit shall not authorize the establishment or extension of any use nor the development, construction, reconstruction, alteration or moving of any building or structure, but shall merely authorize the preparation, filing and processing of applications for any permits or approvals that may be required by the Codes and Ordinances of the City, including but not limited to, a Certificate of Zoning Compliance, a Building Permit, a Certificate of Occupancy and subdivision approval.

- I. Limitations on Special Use Permits. Subject to an extension of time granted by the Community Development Director pursuant to Subsection 11-101 L of this Article, no special use permit shall be valid for a period longer than one year unless a building permit is issued and construction is actually begun within that period and is there-after diligently pursued to completion or unless a Certificate of Occupancy is issued and a use commenced within that period. A special use permit shall be deemed to authorize only the particular use for which it was issued, and such permit shall automatically expire and cease to be of any force or effect if such use shall, for any reason, be discontinued for a period of twelve (12) consecutive months or more. Except when otherwise provided in the Ordinance granting a special use permit, a special use permit shall be deemed to relate to, and be for the benefit of, the current owner or operator of the use or lot in question rather than to the lot itself. Should a new owner or operator purchase the real property and seek to operate the special use in a manner that is in substantial conformance with that of the prior operation, then the new owner or operator shall be allowed to submit a written request to the Community Development Director for a Transfer of Special Use Permit in accordance with Subsection J below.

- J. Transfer of Special Use Permit. A request for Transfer of Special Use Permit shall be filed on an application as provided by the Community Development Director. Within 21 days of receiving a complete application, the Community Development Director shall have the sole discretion to approve, approve with conditions, or deny the application subject to the requirements of this Subsection J.
 1. Affidavit of Acknowledgement and Compliance Agreement. The new owner or operator shall, as part of the application for Transfer of Special Use Permit,

submit a signed and notarized affidavit in a form provided by the Community Development Director affirming the following:

- (a) That the new owner or operator is aware of and in agreement with all of the conditions imposed on the original special use permit as approved.
- (b) That the new owner or operator shall not affect or increase the intensity of the original operation.
- (c) That the Transfer of Special Use Permit shall be null and void in accordance with Paragraph F2 of this Section.
- (d) That the new owner or operator agrees to comply with Sections 9-104 (Off-Street Parking) and 9-107 (Buffers and Landscaping) of this Code is directed to do so by the Community Development Director prior to Certificate of Occupancy issuance.

- 2. Request for Minor Change as Part of Transfer of Special Use Permit. Should the new owner or operator decline to sign an affidavit as described above, or if the Community Development Director denies an application, the new owner or operator may file a request for a Minor or Major Amendment in accordance with Subsection K below.

K. Amendments to Special Use Permits. A special use permit may be amended, varied or altered only as follows:

- 1. Major Amendments to Special Use Permits. Major amendments are modifications which alter the concept, intent, or intensity of the special use. Any one of the following shall be considered a major amendment to a special use. Requests for major amendments shall be reviewed in accordance with Subsection D of this Section. These amendments shall include, but not be limited to:

- (a) Significant changes to the parking location, access plan, building or parking setback areas, or landscaping plans which alter the intent or concept of the special use approved for the site as determined by the Community Development Director. Such significant changes shall include, but not be limited to: relocating the parking location from the rear of the building to either side of the building or to the front; relocating the building from the center of the site to the front, rear, or side of the site; enlarging or reducing any front, side, or rear yards or setbacks by more than twenty percent (20%); eliminating any previously required landscaping serving as screening of the special use from adjacent properties; and adding or eliminating any point of ingress or egress to and from the site which changes the circulation of the site internally and the impact of the use on the transportation system.
- (b) Any increase in the intensity of the special use which alters the intent or concept of the special use. Such an increase in the intensity shall include, but not be limited to: an increase in the number of vehicles to be served on

a site at one time; an increase in the maximum number of customers to be served; and an increase in the net floor area by greater than twenty percent (20%).

2. Minor Amendments to Special Use Permits. Minor amendments are modifications not defined as major amendments and do not alter the concept, intent, or intensity of the special use. Requests for minor amendments shall be reviewed in accordance with Section 11-203 of this Code, with the Planning and Zoning Commission making a final determination within 21 days of the close of the public hearing, either granting the application for a minor amendment; granting the application subject to conditions, as specified in Subsection F above; or denying the application. These amendments shall include:

- (a) Minor changes to the parking location, access plan, building or parking setback areas, or landscaping plans approved for the site as determined by the Community Development Director. Such minor changes shall include, but not be limited to: shifting the parking location internally within the site while maintaining the general siting and circulation; changes to the hours of operation if previously limited in the original special use permit; reducing the height or density of any previously approved landscaping or screening; and any changes that may be required that accommodate stormwater management facilities without altering the concept, intent, or intensity of the special use.
- (b) Any alteration of approved conditions applicable to the special use that would constitute a reduction to the mitigation of the potential negative impact the use would otherwise have on adjacent properties.

L. Renewal of Special Use Permits. The City Council may, in accordance with the procedures and standards set out in this Subsection, consider requests for renewal of special use permits. An application for the renewal of a special use permit must be filed by the party to whom a special use permit was granted, or a permitted successor thereto or assignee thereof, and must be filed prior to the date on which the term of the special use permit is scheduled to expire. The City Council may consider such request at a public hearing following notice pursuant to Subparagraph 11-203 B3(c) of this Code. The City Council may, but shall have no obligation to, seek the recommendation of another board or commission of the City prior to such consideration. In the event that the party requesting such renewal demonstrates, to the satisfaction of the City Council, that the standards and circumstances under which the special use permit was originally approved have not materially changed, then the City Council shall, by ordinance duly adopted, renew the special use permit for the same period of time for which the special use permit was first valid. In the event that the City Council determines that the standards and circumstances under which the special use permit was originally approved have materially changed, the City Council shall have no obligation to renew the special use permit.

11-503: PLANNED DEVELOPMENTS

- A. Authority. The City Council may, in accordance with the procedures and standards set out in this Section, and by ordinance duly adopted, grant special permits authorizing the development of planned developments, but only in the districts where such developments are listed as an authorized special permit use.
- B. Purpose. Planned developments are included in this Code as a distinct category of special use. As such, they are authorized for the same general purposes as all other special uses.

In particular, however, the planned development technique is intended to allow the relaxation of otherwise applicable substantive requirements based upon procedural protections providing for detailed review of individual proposals for significant developments. This special regulatory technique is included in this Code in recognition of the fact that traditional regulations, which may be useful in protecting the character of substantially developed and stable areas, may impose inappropriate pre-regulations and rigidities upon the development or redevelopment of parcels or areas that lend themselves to an individual, planned approach.

Through the flexibility of the planned development technique, the City seeks to achieve the following specific objectives:

1. Creation of a more desirable environment than would be possible through strict application of other City land use regulations.
 2. Promotion of a creative approach to the use of land and related physical facilities resulting in better design and development, including aesthetic amenities.
 3. Preservation and enhancement of desirable site characteristics such as natural topography, vegetation and geologic features, and the prevention of soil erosion.
 4. Combination and coordination of architectural styles, building forms, and building relationships.
 5. Provision for the preservation and beneficial use of open space.
 6. An increase in the amount of open space over that which would result from the application of conventional subdivision and zoning regulations.
 7. Encouragement of land uses that promote the public health, safety and general welfare.
- C. Parties Entitled to Seek Planned Development Approval. An application for special permit to permit a planned development may be filed by the owner of, or any person having a contractual interest in, the subject property.
- D. Procedure.
1. Development Concept Plan.

- (a) Purpose. The Development Concept Plan is intended to provide the applicant an opportunity to submit a plan showing the basic scope, character and nature of the entire proposed planned development without incurring undue cost. The Development Concept Plan is the basis on which the required public hearing is held, thus permitting public consideration of the proposal at the earliest possible stage. In order to permit the City and the applicant to proceed with some assurance, approval of the Development Concept Plan binds the applicant and the City with respect to the following basic elements of development:
- (i) Categories of uses to be permitted;
 - (ii) General location of residential and nonresidential land uses;
 - (iii) Overall maximum density of residential uses and intensity of nonresidential uses;
 - (iv) General architectural style of the proposed development;
 - (v) General location and extent of public and private open space, including recreational amenities;
 - (vi) General location of vehicular and pedestrian circulation systems;
 - (vii) Staging of development; and
 - (viii) Nature, scope and extent of public dedications, improvements or contributions to be provided by the applicant.
- (b) Application. A formal application for approval of a Development Concept Plan shall be filed with the Community Development Director in accordance with the requirements of Paragraph 11-201 E9 of this Article. Except as expressly provided otherwise herein, no application for approval of a Development Concept Plan shall proceed to a public hearing until the Community Development Director has first reviewed the application and determined that it is in proper form.
- (c) Referral. After the Community Development Director has determined that an application for approval of a Development Concept Plan is in proper form, it shall be referred to the Planning and Zoning Commission for a public hearing. The failure of the Community Development Director to act on a properly filed and completed application within thirty (30) days of his or her receipt thereof, shall be deemed to be a decision to refer the application pursuant to this Subparagraph.
- (d) Public Hearing. In any case where an application for approval of a Development Concept Plan is referred by the Community Development Director pursuant to Subsection 11-101(F), a public hearing shall be set, noticed and conducted by the Planning and Zoning Commission in accordance with Section 11-203 of this Article.
- (e) Action by Planning and Zoning Commission. Within 21 days following the conclusion of the public hearing, the Planning and Zoning Commission shall transmit to the City Council its recommendation, in the form specified by Subsection 11-104 B of this Article that the

Development Concept Plan either be approved, be approved subject to modifications, or not be approved.

The failure of the Planning and Zoning Commission to act within 21 days, or such further time to which the applicant may agree, shall be deemed a recommendation for the denial of the Development Concept Plan as submitted.

- (f) Action by City Council. Within sixty (60) days following the receipt of the recommendation of the Planning and Zoning Commission, or its failure to act as above provided, the City Council shall either deny the application for approval of the Development Concept Plan; shall remand it back to the Planning and Zoning Commission for further consideration of specified matter; or shall, by resolution duly adopted, approve the Development Concept Plan, with or without modifications and conditions to be accepted by the applicant as a condition of such approval, and refer the matter to the Community Development Director for processing of the Final Plan in accordance with Paragraph D2 of this Section.

The failure of the City Council to act within sixty (60) days, or such further time to which the applicant may agree, shall be deemed to be a decision denying approval of the Development Concept Plan.

- (g) Coordination With Subdivision Ordinance. When a subdivision of land subject to the Oak Forest Subdivision Ordinance is proposed in connection with a planned development, review of the tentative plant of the proposed subdivision shall be carried out simultaneously with review of the Development Concept Plan.
- (h) Limitation on Development Concept Plan Approval. An application for Final Plan approval shall be filed in accordance with Paragraph D2 below within one year after the approval of the Development Concept Plan. Failure to file a Final Plan application within such period shall, unless an extension of time shall have been granted by the Community Development Director pursuant to Subsection 11-101 L of this Article, automatically render void the Development Concept Plan approval and all approvals of the planned development, and the Community Development Director shall, without further direction, initiate an appropriate application to revoke the Special Use Permit.

2. Final Plan.

- (a) Purpose. The Final Plan is intended to particularize, refine and implement the Development Concept Plan and to serve as a complete, thorough and permanent public record of the planned development and the manner in which it is to be developed.
- (B) Application. Upon approval of the Development Concept Plan, the applicant shall file an application for Final Plan approval with the

Community Development Director in accordance with the requirements of Paragraph 11-201 E10 of this Article. Except as expressly provided otherwise herein, no application for approval of a Development Concept Plan shall proceed to a public hearing until the Community Development Director has first reviewed the application and determined that it is in proper form. The application shall refine, implement and be in substantial conformity with the approved Development Concept Plan.

- (c) Simultaneous Submission of Final Plan. The applicant may, at his option, submit a Final Plan for the proposed planned development pursuant to the requirements of Paragraph D2 simultaneously with the submission of the Development Concept Plan pursuant to the requirements of Paragraph D1 above. In such case, the applicant shall comply with all provisions of this Code applicable to submission of the Development Concept Plan and to submission of the Final Plan. The Planning and Zoning Commission and the City Council shall consider such plans simultaneously and shall grant or deny Final Plan Approval in accordance with the provisions of Paragraph D2.
- (d) Public Meeting. A public meeting shall be set, noticed and conducted by the Planning and Zoning Commission in accordance with Section 11-203 of this Article.
- (e) Coordination With Subdivision Ordinance. When a subdivision of land subject to the Oak Forest Subdivision Ordinance is proposed in connection with a planned development, review of the final plat of the proposed subdivision shall be carried out simultaneously with review of the Final Plan.
- (f) Phasing of Final Plan Approval. An application for Final Plan approval may include the entire area included in the approved Development Concept Plan or one or more phases, stages or units thereof; provided, however, that the following matters must be addressed and provide in the first phase, stage or unit submitted for Final Plan approval:
 - (i) All public improvements required or proposed for the entire area included in the approved Development Concept Plan.
 - (ii) All open space required or proposed for the entire area included in the approved Development Concept Plan.
 - (iii) All land dedications required or proposed for the entire area included in the approved Development Concept Plan.
 - (iv) The payment of all fees required by this Code.
- (g) Action by Planning and Zoning Commission.
 - (i) Evaluation. Within sixty (60) days following the filing of an application for approval of a Final Plan, the Planning and Zoning Commission shall with such aid and advice of such City staff and

consultants as may be appropriate, review and act on the plan. Such review shall consider:

- (1) Whether the Final Plan is in substantial conformity with the approved Development Concept Plan;
 - (2) The merit or lack of merit of any departure of the Final Plan from substantial conformity with the approved Development Concept Plan;
 - (3) Whether the Final Plan complies with any and all conditions imposed by the approval of the Development Concept Plan; and
 - (4) Whether the Final Plan complies with the provisions of this Code and all other applicable federal, state and City codes, ordinances and regulations.
- (ii) Approval Based on Substantial Conformity. If the Planning and Zoning Commission finds substantial conformity between the Final Plan and the approved Development Concept Plan and further finds the Final Plan to be in all other respects complete and in compliance with any and all conditions imposed by approval of the Development Concept Plan and with the provisions of this Code and all other applicable federal, state and City codes, ordinances and regulations, it shall transmit the plan to the City Council with its recommendation, in the form specified in Subsection 11-104 B of this Article, that the Board approve the Final Plan, with or without modifications and conditions to be accepted by the applicant as a condition of approval.
- (iii) Recommendation of Denial. In any case where the Planning and Zoning Commission finds that the Final Plan is not in substantial conformity with the approved Development Concept Plan and does not merit approval, or in any case where it requires modifications of a plan that are not accepted by the applicant, the Planning and Zoning Commission shall transmit the plan to the City Council together with its recommendation and specific reasons in support of its recommendation, in the form specified in Subsection 11-104 B of this Article, that the Final Plan not be approved.
- (iv) Failure to Act. The failure of the Planning and Zoning Commission to act within the 60 day period specified in Subparagraph D3(f)(i) of this section, or such further time to which the applicant may agree, shall be deemed to be a recommendation to the City Council to deny the Final Plan as submitted.
- (h) Action by City Council. Within sixty (60) days following the receipt of the recommendation of the Planning and Zoning Commission, or its failure to act as above provided, the City Council shall take action in accordance with the following Paragraphs:

- (i) Approval Based on Substantial Conformity. If the Planning and Zoning Commission has recommended approval of a Final Plan pursuant to Subparagraph D3(g)(ii) of this Section, the City Council shall, unless it specifically rejects one or more of the findings of the Planning and Zoning Commission on the basis of expressly stated reasons, approve the Final Plan by a duly adopted ordinance.
- (ii) Approval Notwithstanding Planning and Zoning Commission Recommendation of Denial. If the Planning and Zoning Commission has recommended denial of a Final Plan pursuant to Subparagraph D3(g)(iii) of this Section, the City Council may, if it finds that the Final Plan merits approval and otherwise conforms to the requirements of this Code, approve the Final Plan by a duly adopted ordinance.
- (iii) Referral Back to Planning and Zoning Commission. The City Council may refer the Final Plan back to the Planning and Zoning Commission for further consideration of specified matters.
- (iv) Conditions on Final Plan Approval. The approval of any Final Plan may, in addition, be granted, with or without modifications and conditions to be accepted by the applicant as a condition of approval.
- (v) Failure to Act. The failure of the City Council to act within sixty (60) days, or such further time to which the applicant may agree, shall be deemed to be a decision denying Final Plan approval.
- (i) Recording of Final Plan. When a Final Plan is approved, the Community Development Director shall cause the Final Plan, or the portions thereof as are appropriate, to be recorded with the Recorder of Deeds of Cook County.
- (j) Limitation on Final Plan Approval. Construction shall commence in accordance with the approved Final Plan within one year after the approval of such Plan, or within such shorter time as may be established by the approved development schedule. Failure to commence construction within such period shall, unless an extension of time shall have been granted by the Community Development Director pursuant to Subsection 11-101 L of this Article, automatically render void the Final Plan approval and all approvals of the planned development and all permits based on such approvals, and the Community Development Director shall, without further direction, initiate an appropriate application to revoke the special use permit for all portions of the Planned Development that have not yet been completed.

- (k) Building and Other Permits. Appropriate officials of the City may, upon, but not before, receiving notice from the Community Development Director that the documents required for Final Plan approval have been approved, and upon proper application by the applicant, issue building and other permits to the applicant for the development, construction and other work in the area encompassed by the approved Final Plan; provided however, that no permit shall be issued unless the appropriate official is first satisfied that the requirements of any codes or ordinances of the City, in addition to this Code, that are applicable to the permit sought have been satisfied.

Building permits may, however, be withheld at the discretion of the Community Development Director or the City Council at any time it is determined that the development of the planned development is not proceeding in strict compliance with the approved Final Plan.

E. Standards for Planned Developments.

- 1. Special Use Permit Standards. No special use permit for a planned development shall be recommended or granted pursuant to this Section unless the applicant shall establish that the proposed development will meet each of the standards made applicable to special uses pursuant to Section 11-502 of this Article.
- 2. Additional Standards for All Planned Developments. No special use permit for a planned development shall be recommended or granted unless the applicant shall establish that the proposed development will meet each of the following additional standards:
 - (a) Unified Ownership Required. The entire property proposed for planned development treatment shall be in single ownership or under such unified control as to ensure that the entire property will be developed as a unified whole. All owners of the property shall be included as joint applicants on all applications and all approvals shall bind all owners. The violation of any owner as to any tract shall be deemed a violation as to all owners and all tracts.
 - (b) Minimum Area. The district regulations of this Code establishing standards for particular types of planned development specify the minimum area required for same planned development. In addition to meeting that specific standard, or where no specific standard is set, the applicant shall have the burden of establishing that the subject property is of sufficient size and shape to be planned and developed as a unified whole capable of meeting the objectives for which planned developments may be established pursuant to this Section.
 - (c) Covenants and Restrictions to be Enforceable by City. All covenants, deed restrictions, easements and similar restrictions to be recorded in connection with the planned development shall provide that they may not be modified, removed or released without the express consent of the City

Council and that they may be enforced by the City as well as by future landowners within the proposed development.

- (d) Public Open Space and Contributions. Whenever the Official Comprehensive Plan or Official Map indicates that development of a planned development will create a need for land for public purposes of the City within the proposed planned development, the City Council may require that such area be designated and to the extent such need is specifically and uniquely attributable to the proposed development, dedicated to the City for such use. In addition, the City Council may require evidence that all requirements of City ordinances pertaining to the dedication of land or the contribution of cash in connection with subdivisions or developments of land have been met as respects the proposed planned development.
- (e) Common Open Space.
 - (i) Amount, Location and Use. The failure of a planned development to provide common open space shall be considered to be an indication that it has not satisfied the objectives for which such developments may be approved pursuant to this Code. When common open space is provided in a planned development, the amount and location of such open space shall be consistent with its intended function as set forth in the application and planned development plans. No such open space shall be used for the construction of any structure or improvement except such structures and improvements as may be approved in the Final Plan as appropriate to the intended leisure and recreational uses for which such open space is intended.
 - (ii) Preservation. Adequate safeguards, including recorded covenants or dedication of development rights, shall be provided to prevent the subsequent use of common open space for any use, structure, improvement or development other than that shown on the approved Final Plan. The restrictions must be permanent and not for a given period of years and must run with the land.
 - (iii) Ownership and Maintenance. The Final Plan shall include such provisions for the ownership and maintenance of such open space and improvements as are reasonably necessary to ensure their continuity, care, conservation, maintenance and operation in accordance with predetermined standards and to ensure that remedial measures will be available to the City if such open space or improvements are permitted to deteriorate or are not maintained in a condition consistent with the best interests of the planned development or the City.
 - (iv) Property Owners' Association. When the requirements of the preceding Subparagraph are to be satisfied by the ownership or maintenance of such open space or improvements by a property

owners' association, such association shall meet each of the following standards:

- (1) The by-laws and rules of the association and all declarations, covenants and restrictions to be recorded must be approved as part of the Detailed Plan prior to becoming effective. Each such document shall provide that it shall not be amended in any manner that would result in it being in violation of the requirements of this Subparagraph.
- (2) The association must be established and all covenants and restrictions recorded prior to the sale of any property within the area of the planned development designated to have the exclusive use of the proposed open space or improvements.
- (3) The association must be responsible for casualty and liability insurance, taxes, and the maintenance of the open space and improvements to be deeded to it.
- (4) Membership in the association must be mandatory for each property owner, and any successive owner, having a right to the use or enjoyment of such open space or improvements.
- (5) Every property having a right to the use or enjoyment of such open space or improvements must pay its pro rata share of the cost of the association by means of an assessment to be levied by the association that meets the requirements for becoming a lien on the property in accordance with statutes of the State of Illinois.
- (6) The association must have the right to adjust the assessment to meet changed needs. The membership vote required to authorize such adjustment shall not be fixed at more than 51 percent of the members voting on the issue.
- (7) The City must be given the right to enforce the covenants.
- (8) The City must be given the right, after ten days' written notice to the association, to perform any maintenance or repair work that the association has neglected to perform, to assess the membership for such work and to have a lien against the property of any member failing to pay such assessment. For this purpose alone, the City shall have all the rights and powers of the association and its governing body under the agreements and declarations creating the association.

- (f) Landscaping and Perimeter Treatment. Any area of a planned development not used for structures or circulation elements shall be landscaped or otherwise improved. The perimeter of the planned development shall be treated so as to ensure compatibility with surrounding uses by means such as provision of compatible uses and structures; setbacks; screening; or natural or manmade buffers. Every planned development shall provide a perimeter landscaped open space

along each of its boundaries; each such open space shall have a minimum depth equal to the minimum applicable yard required in the district in which it is located.

(g) Private Streets. Private streets shall be permitted in a planned development provided that:

- (i) Said streets shall be treated as public streets and rights of way for purposes of all setbacks, yards and calculations under this Code.
- (ii) Said streets shall be owned and maintained by a property owners' association meeting the requirements set forth in Subparagraph E2(e)(4) above; and
- (iii) A covenant shall be recorded against the subject property acknowledging that the City shall at no time be under any obligation to provide maintenance for or accept dedication of said streets.

(h) Utilities. All utility lines shall be installed underground.

3. Additional Standards for Specific Planned Developments. Where the district regulations authorizing any planned development use in a particular district impose standards to be met by such planned development in such district, a special permit for such development shall not be recommended or granted unless the applicant shall establish compliance with such special standards.

F. Conditions on Planned Development Approvals. The approval of either a Development Concept Plan or a Final Plan may be conditioned on such matters as the approving body may find necessary to prevent or minimize any possible adverse effects of the proposed planned development; or to ensure its compatibility with surrounding uses and development and its consistency with the general purposes, goals and objectives of this Code, the Subdivision Ordinance and the Official Comprehensive Plan. Such conditions shall be expressly set forth in the ordinance or resolution granting the approval in question. Violation of any such condition or limitation shall be a violation of this Code and shall constitute grounds for revocation of all approvals granted for the planned development.

G. Affidavit of Compliance With Conditions; Fee. Whenever any planned development approval granted pursuant to this Section is made subject to conditions or limitations to be met by the applicant, the applicant shall, upon meeting such conditions, file an affidavit with the Community Development Director so stating. Such affidavit shall be accompanied by a nonrefundable fee, to be fixed in each case by the Community Development Director, to recover the City's actual direct cost of an inspection to verify that such conditions and limitations have been met.

H. Regulation During and Following Completion of Development. Following Final Plan approval, in the event of an express conflict between the provisions of the Final Plan and this Code, the Final Plan shall control. This Code shall control in all other instances.

I. Inspections During Development.

1. Inspections by Community Development Director. Following approval of the Final Plan of a planned development, or any stage thereof, the Community Development Director shall, at least annually until the completion of development, review all permits issued and construction undertaken and compare actual development with the approved plans for development and with the approved development schedule.
2. Action by Community Development Director. If the Community Development Director finds that development is not proceeding in accordance with the approved schedule, or that it fails in any other respect to comply with the Final Plan, the Community Development Director shall immediately notify the City Council of such fact and may, if necessary to protect the public health, safety or welfare or to prevent further violation of this Code and the Final Plan, issue an order stopping any and all work on the planned development until such time as any noncompliance is cured.
3. Action by City Council. Within sixty (60) days following notification by the Community Development Director, the City Council shall either:
 - (a) Take such steps as it deems necessary to compel compliance with the Final Plan; or
 - (b) Require the owner or applicant to seek an adjustment to the Final Plan as provided in Subsection J of this Section.

J. Adjustments to Final Plan During Development

1. Minor Adjustments. During the development of a planned development, the Community Development Director may authorize minor adjustments to the Final Plan when such adjustments appear necessary in light of the technical or engineering considerations first discovered during actual development. Such minor adjustments shall be limited to the following:
 - (a) Altering the location of any one structure or group of structures by not more than 5 feet or one-fourth of the distance shown on the approved Final Plan between such structure or structures and any other structure or any vehicular circulation element or any boundary of the planned development, whichever is less;
 - (b) Altering the location of any circulation element by not more than five (5) feet or one-fourth of the distance shown on the approved Final Plan between such circulation element and any structure, whichever is less;
 - (c) Altering the location of any open space by not more than twenty (20) feet;
 - (d) Altering any final grade by not more than ten percent (10%) of the originally planned grade; and
 - (e) Altering the location or type of landscaping elements.

- (f) Such minor adjustments shall be consistent with the intent and purpose of this Code and the Final Plan as approved, shall be the minimum necessary to overcome the particular difficulty and shall not be approved if they would result in a violation of any standard or requirement of this Code.

- 2. Major Adjustments. Any adjustment to the Final Plan not authorized by Paragraph J1 above shall be considered to a major adjustment and shall be granted only upon application to and approval by, the City Council. The City Council may, by ordinance duly adopted, grant approval for a major adjustment without a hearing upon finding that any changes in the Final Plan as approved will be in substantial conformity with said Final Plan. If the City Council determines that a major adjustment is not in substantial conformity with the Final Plan as approved, then the Board may refer the request to the Plan Commission for further hearing, review and recommendation.

K. Amendments to Final Plan Following Approval or Completion of Development. After approval or completion of a planned development, an approved Final Plan may be amended, varied, or altered only pursuant to the procedures and subject to the standards and limitations provided in this Section 11-503 for approval of the planned development.

- 1. Major Amendments. Major amendments are modifications which alter the concept or intent of the approved Final Plan. Any one of the following shall be considered a Major Amendment to a Final Plan. Requests for Major Amendments shall be reviewed in accordance with Paragraph D2 of this Section. These amendments shall include, but not be limited to:

- (a) Significant changes which include increases in density, increases in height and/or bulk of buildings, a major reduction in the size of the proposed buildings, increases or major decreases in the number of buildings and/or lots, reductions in the amount of proposed open space, any roadway changes, changes in the final governing agreements, provisions or covenants, or other changes which change the concept or intent of the development.

- (b) Significant changes to the parking location, access plan, building or parking setback areas, landscape plans, or approved conditions.

- (c) Any changes to the designated land use or uses which either are not consistent with the written statement filed and approved as part of the Development Concept Plan, as required by Subparagraph 11-201 E9(d) of this Code, or would require a Special Use Permit approval in the property's underlying zoning classification.

- (d) Any changes which would result in a variation in the underlying zoning classification not otherwise approved in the Final Plan, as authorized by Paragraph 11-403 E2 of this Code.

- 2. Minor Amendments. Minor amendments are modifications not defined as major amendments and do not alter the concept or intent of the Final Plan. Requests for

minor amendments shall be reviewed in accordance with Section 11-203 of this code, with the Planning and Zoning Commission making a final determination within 21 days of the close of the public hearing, either granting the application for a minor amendment; granting the application subject to conditions, as specified in Subsection F above; or denying the application. These amendments shall include:

- (a) Minor changes to the parking location, access plan, building or parking setback areas, or landscaping plans approved for the site as determined by the Community Development Director. Such minor changes shall include, but not be limited to: shifting the parking location internally within the site while maintaining the general siting and circulation; reducing the amount of parking spaces provided by not more than twenty (20) percent than what was approved in the Final Plan; reducing the height or density of any previously approved landscaping or screening; and any changes that may be required that accommodate stormwater management facilities without altering the concept or intent of the Final Plan.
- (b) Any alteration of approved conditions applicable to the planned development that would constitute as a reduction to the mitigation of the potential negative impact the planned development would otherwise have on adjacent properties.
- (c) Any change that results in a variation to this Code as permitted in Paragraph 11-403 E1 of this Code or increase the extent of a previously granted variation from this Code
- (d) Any other minor change that would otherwise not be considered a Major Amendment, as defined Paragraph K1.

11-504: SITE PLAN REVIEW

- A. Authority. Except in the cases of uses and developments requiring a special use permit pursuant to the provisions in this Code, the Community Development Director may, as a matter of original jurisdiction and in accordance with the procedures and standards set out in this Section, grant site plan approval to uses and developments requiring such approval pursuant to Subsection C of this Section. In case of uses and developments requiring a special use permit pursuant to Section 11-502 or Section 11-503 of this Code, and in cases of appeal from a denial of approval by the Community Development Director, the City Council may, by ordinance duly adopted, grant site plan approval in accordance with the procedures and standards set out in this Section.
- B. Purpose. The site plan review process recognizes that even those uses and developments that have been determined to be generally suitable for location in a particular district are capable of adversely affecting the purposes for which this Code was enacted unless careful consideration is given to critical design elements. It is the purpose of this Section to provide a vehicle for the review of the developer's attention to such elements.
- C. Site Plan Review Required.

1. Community Development Director Review. Site plan review by the Community Development Director in accordance with this Section shall be required in connection with the following developments:
 - (a) Any development or redevelopment, other than for one single family detached dwelling unit, involving a parcel under single ownership or control having an area in excess of 40,000 square feet.
 - (b) Any development or redevelopment involving the construction of any new structure or structures having a gross floor area in excess of 20,000 square feet, a floor area ratio in excess of 0.25 or a height of more than three stories.
 - (c) Any development or redevelopment involving an existing structure having a floor area in excess of 20,000 square feet, a floor area ratio in excess of 0.25, or a height in excess of three stories that would alter any such measure by more than 25 percent of such amount.
 - (d) Any development or redevelopment involving the creation or expansion of a parking lot or garage or a loading space.
 - (e) Any nonresidential development on a lot abutting or across a right of way from any residential district.

D. Parties Entitled to Seek Site Plan Approval. Application for site plan review may be filed by the owner of, or any person having a contractual interest in, the subject property,

E. Procedure.

1. Community Development Director Approvals.
 - (a) Application. Applications for site plan approval by the Community Development Director shall be filed in accordance with the requirements of Section 11-301 of this Article.

such application and the attached site plan to be reviewed, in terms of the standards established by Subsection F of this Section, by appropriate members of his staff.

He shall then either: (1) approve the site plan as submitted; (2) on the basis of written findings in accordance with Subsection F below, approve it subject to specific modification; or (3) on the basis of such written findings, deny approval of the site plan.

Immediately upon concluding his review, the Community Development Director shall return one copy of the site plan to the applicant marked to show either approval, approval subject to modification, which modification shall be clearly and permanently marked on such plans, or denial or approval. The Community Development Director shall maintain a similarly marked set of such plans in his files for any further processing that may be required.

The failure of the Community Development Director to act within said thirty (30) days, or such further time to which the applicant may agree, shall be deemed to be a decision approving the site plan as submitted.

- (c) Effect of Community Development Director's Action. The action of the Community Development Director in approving a site plan or in approving a site plan subject to modifications that are acceptable to the applicant shall constitute a final administrative action and shall not be subject to further review by, or appeal to, any City Council or Commission.

The action of the Community Development Director in denying an application for site plan approval or in approving a site plan subject to modifications that are not acceptable to the applicant (which action the applicant may treat as a denial) shall not be considered final action by the City but shall only be authorization for the applicant to seek approval of the site plan from the City Council by way of the appeal procedure set forth below.

- (d) Appeals. Within 45 days following a denial of site plan approval by the Community Development Director, the applicant may seek approval of the site plan by filing an application for appeal to the City Council in accordance with the requirements of Section 11-201 of this Article. Any such appeal shall be proceeded in accordance with the provisions of Paragraph E2 below.

2. City Council Approvals: Original and Appellate.

Applications for site plan approval by the City Council, whether as a matter of its original or its appellate jurisdiction shall be filed in accordance with the requirements of Section 11-201 of this Article. In cases where review is sought by way of an appeal of a denial of site plan

approval by the Community Development Director, the application for appeal shall be filed within 45 days following such denial.

- (b) Action by Community Development Director in Appeal Cases. Upon receipt of a properly completed application for an appeal of a denial of site plan approval by the Community Development Director, the Director shall forthwith transmit to the City Council the application for appeal, the original application for site plan approval, all papers constituting the record upon which the Director's denial was based and a copy of the Director's decision denying the application for site plan approval.
- (c) Public Meeting. A public meeting shall be set, noticed and conducted by the City Council in accordance with Section 11-203 of this Article.
- (d) Action by City Council. Within 35 days following the conclusion of the public meeting, the City Council shall, by ordinance duly adopted, either approve the site plan as submitted, make modifications acceptable to the applicant and approve such modified site plan or approve or disapprove it in the manner hereinafter specified.

The failure of the Board to act within sixty (60) days, or such further time to which the applicant may agree, shall be deemed to be a decision denying site plan approval.

F. Standards for Site Plan Disapproval.

- 1. Standards. The Community Development Director and the City Council shall not disapprove a site plan submitted pursuant to this Section except on the basis of specific written findings directed to one or more of the following standards:
 - (a) The application is incomplete in specified particulars or contains or reveals violations of this Code or other applicable regulations that the applicant has, after written request, failed or refused to supply or correct.
 - (b) The application is submitted in connection with another application, the approval of which is a condition precedent to the necessity for site plan review, and the applicant has failed to secure approval of that application.

- (j) The proposed site plan does not provide for required public uses designated on the Official Map.
- (k) The proposed site plan otherwise adversely affects the public health, safety or general welfare.

2. Alternative Approaches. In citing any of the foregoing standards, other than those of Subparagraphs 1(a) and (b), as the basis for disapproving a site plan, the Community Development Director or the City Council may suggest alternative site plan approaches that could be developed to avoid the specified deficiency or may state the reasons why such deficiency cannot be avoided consistent with the applicant's objectives.

G. Effect of Site Plan Approval. Approval of a site plan shall not authorize the establishment or extension of any use nor the development, construction, reconstruction, alteration or moving of any building or structure, but shall merely authorize the preparation, filing and processing of applications for any permits or approvals that may be required by the codes and ordinances of the City, including, but not limited to, a Certificate of Zoning Compliance, a Building Permit, a Certificate of Occupancy and Subdivision Approval.

A copy of every approved site plan shall be filed with the Community Development Director and the development of the site shall be in substantial conformity with such approved & filed plan.

H. Limitations on Site Plan Approval. Subject to an extension of time granted by the Community Development Director pursuant to Subsection 11-101 L of this Article, no site plan approval shall be valid for a period longer than one year unless a building permit is issue and construction is actually begun within that period and is thereafter diligently pursued to completion or unless a Certificate of Occupancy is issued and a use commenced within that period.

I. Adjustments to Site Plan during Development.

1. Site Plans Approved by the Community Development Director. During the development of the site, the Community Development Director shall have authority to authorize any adjustment to a site plan approved by him that he could have authorized in the course of his original review.

2. Site Plans Approved by the City Council.

(a) Minor Adjustments. During the development of the site, the Community Development Director may authorize minor adjustments to a site plan originally approved by the City Council when such adjustments appear necessary in light of technical or engineering considerations first discovered during actual development. Such minor adjustments shall be limited to the following:

- (iii) Altering the location of any open space by not more than twenty (20) feet.
- (iv) Altering any final grade by not more than ten percent (10%) of the originally planned grade.
- (v) Altering the location or type of landscaping elements.

Such minor adjustments shall be consistent with the intent and purpose of this Code and the site plan as approved shall be the minimum necessary to overcome the particular difficulty and shall not be approved if they would result in a violation of any standard or requirement of this Code.

(b) Major Adjustments. Any adjustment to a site plan originally approved by the City Council that is not authorized by Subparagraph 2(a) above shall be considered to be a major adjustment and shall be granted only upon application to an approval by the City Council. The City Council may, by ordinance duly adopted, grant approval for major adjustment without referral to the Planning and Zoning Commission upon finding that any changes in the site plan as approved will be in substantial conformity with said plan.

J. Amendments to Site Plan Following Completion of Development. After a site is developed in accordance with an approved site plan, the approved site plan may be amended, varied, or altered in the same manner and subject to the same limitations as provided for the original approval of site plans.

- A. Authority. The City Council, in accordance with the procedures and standards set out in this Section and by ordinance duly adopted, may grant Design Review Permit approval; provided, however, that no such permit shall be granted unless such use or development complies with the regulations of the district in which it is located and all necessary certificates, permits and approvals for such use or development shall have been secured.
- B. Purpose. The Design Review Permit process is intended to provide a procedure for the review of plans to ensure that the use and development requiring design review approval will comply with standards established to preserve the integrity of areas and structures which have been determined to merit special protection.

It is the ultimate responsibility of the elected governing body of the City to assess the impact of those factors on the land use decision involved and to make a decision based upon the overall public good, other than actions seeking administrative review of any final decision of the Planning and Zoning Commission.

11-603: POWERS
