Illinois Department of Transportation
201 W. Center Court
Schaumburg, IL 60196

8 June 2020

Per the Illinois Compiled Statutes 625 ILCS 5/11-208.6. Sec. 11-208.6 Automated traffic law enforcement system:

(k-7) A municipality or county operating an automated traffic law enforcement system shall conduct a statistical analysis to assess the safety impact of each automated traffic law enforcement system at an intersection following installation of the system. The statistical analysis shall be based upon the best available crash, traffic, and other data, and shall cover a period of time before and after installation of the system sufficient to provide a statistically valid comparison of safety impact. The statistical analysis shall be consistent with professional judgment and acceptable industry practice. The statistical analysis also shall be consistent with the data required for valid comparisons of before and after conditions and shall be conducted within a reasonable period following the installation of the automated traffic law enforcement system. The statistical analysis required by this subsection (k-7) shall be made available to the public and shall be published on the website of the municipality or county. If the statistical analysis for the 36 month period following installation of the system indicates that there has been an increase in the rate of accidents at the approach to the intersection monitored by the system, the municipality or county shall undertake additional studies to determine the cause and severity of the accidents, and may take any action that it determines is necessary or appropriate to reduce the number or severity of the accidents at that intersection.

In December 2010, the Oak Forest Police Department complied with this law and submitted the statistical analysis required. 3 year analysis reports have been completed through calendar year 2016. We are submitting this analysis through 2019 voluntarily to IDOT for informational purposes only and will be posted on our web site.

Should you have any questions, please do not hesitate to call.

Sincerely,

A handwritten signature in blue ink, appearing to read "Timothy Kristin".

Timothy Kristin
Chief of Police

Intersection Locations

Intersection location(s), including street names, municipality, and county.
(IDOT March 1, 2007 memorandum)

City of Oak Forest Cook County, Illinois

- 1) 159th Street (US Highway 6) and Cicero Avenue (IL Route 50)
- 2) 167th Street and Cicero Avenue (IL Route 50)

Geometric Description

Brief geometric description of the intersection(s) and land usage.
(IDOT March 1, 2007 memorandum)

The City of Oak Forest, Illinois is located in the southwest suburbs of Chicago and is located approximately 25 miles and 30 minutes from downtown Chicago.

159th Street and Cicero Avenue

Cicero Avenue (IL Route 50) is the main north-south road through the City of Oak Forest and serves as a major commuter route. 159th Street is the main east – west road through the City of Oak Forest and is a major commuter route. The intersection of two roads is the busiest and most dangerous in the city. On the Northwest corner is the Metra train station and parking lot, which adds additional traffic to the intersection especially during the morning and evening commute. This corner is in the process of being converted to a mixed-use development with large condominium complexes and shops. An additional commuter parking lot is located to the south across the street on the southwest corner of 159th Street and Oak Avenue. A restructuring of the intersection will add a new eastbound dedicated right hand turning lane and a second north bound turning lane. This measure can relieve some of the traffic buildup along 159th Street.

Presently, Cook County Health Services resides on the southeast corner of 159th Street and Cicero Avenue, which is Cook County Jurisdiction. The Northeast corner is occupied by the Cook County Forest Preserve woodlands. The Southwest corner is an empty grave lot at this time being used for the staging of construction equipment for the reconfiguration of the intersection of 159th Street and Cicero Avenue.

Traffic clearing the northbound traffic signal does not encounter another signalized intersection until 155th Street with another signalized intersection located at 151st Street. Note these two intersection have traffic activated signals and can provide exceptionally long green light periods. This not only promotes red light running but speeds in excess of the 35 MPH posted speed limits north of 159th Street.

167th Street and Cicero Avenue

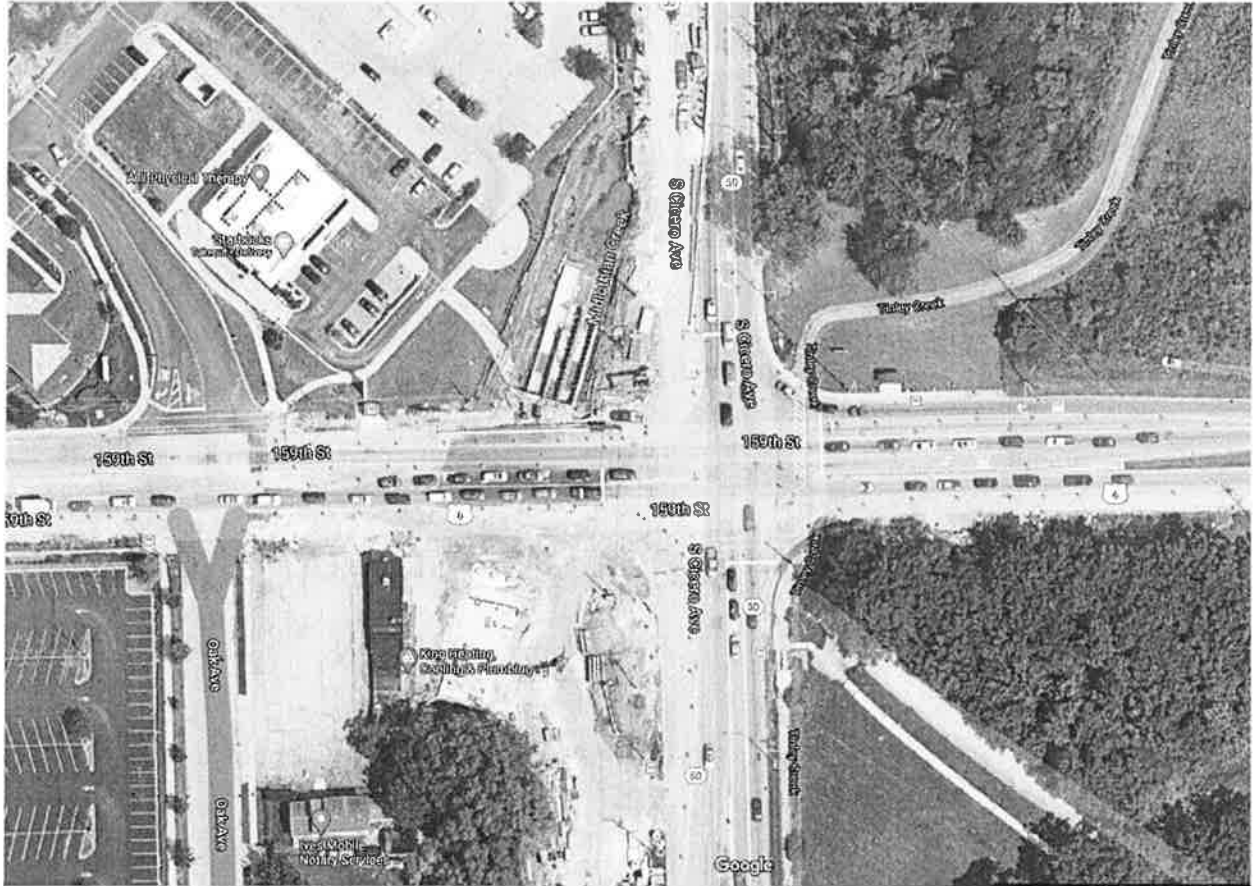

The section of Cicero Ave. from 167th Street to 159th Street is approximately one mile. Cicero Avenue southbound from 167th Street continues for just over 1 mile before encountering another traffic signal at 175th Street. Overall, vehicles traveling southbound on this section of road exploit the opportunity of having another mile before the next signalized intersection. The long stretch of roadway encourages red light running as speeds are well above the 45MPH posted speed limits on Cicero Avenue. We have experienced many vehicles violate a red light on 167th Street west bound as they have just exited off of Interstate 57 and have yet to reduce speeds to the posted 35MPH speed limit. Motorists traveling Eastbound violate the red light at Cicero Avenue knowing it is the last signal before entering Interstate 57. Just north of this intersection is Fieldcrest Drive. Fieldcrest Drive provides entry and exit on to Cicero Avenue. Fieldcrest Drive and Cicero Ave is a signalized intersection.

The Cook County Forest Preserve occupies the Northwest corner of the intersection. Shell Gas Station with 4 entry and exit locations occupy the Southwest corner of this intersection. Urbancik Auto Sales with two entry and exit points occupy the Southeast corner. Finally a residential subdivision which feeds onto Fieldcrest Drive is located in the North East corner of the intersection.

Locations of 159th Street and 167th Street along Cicero Avenue

159th Street and Cicero Avenue (Under Construction - 2019)

167th Street and Cicero Avenue.

Crash Data

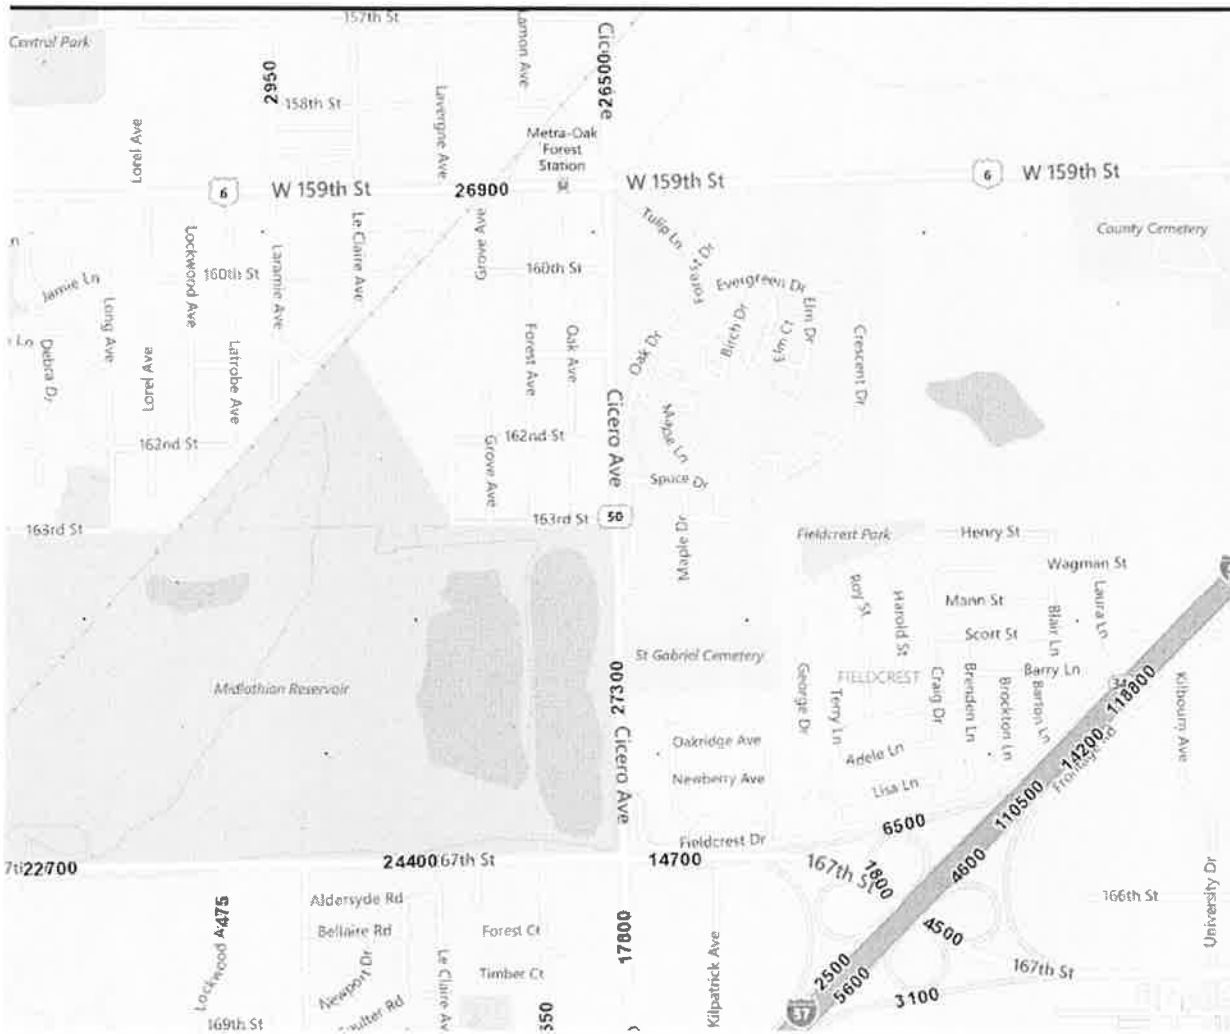

Crash data and collision diagrams should be submitted if available. It is recommended that the most recent three (3) years of available data be used and include the crash type, specifically left turn, angle, and rear end crashes.

(IDOT March 1, 2007 memorandum)

Crash data for the last three years was obtained from IDOT in Springfield and Oak Forest Police Department Records and is located in the appendix.

Average daily and peak period traffic volumes, if available.
(IDOT March 1, 2007 memorandum)

Average annual daily traffic count.

Approach angles and speed limits.

(IDOT March 1, 2007 memorandum)

159th Street and Cicero Ave.

159th Street is an east/west road.

Cicero Avenue is a north/south road.

Posted speed limit on Cicero Avenue north of 159th Street = 35 MPH

Posted speed limit on Cicero Avenue south of 159th Street = 45 MPH

Posted speed limit on 159th Street east of Cicero Avenue = 40 MPH

Posted speed limit on 159th Street west of Cicero Avenue = 40 MPH

167th Street and Cicero Avenue.

167th Street is an east/west road.

Cicero Avenue is a north/south road.

Posted speed limit on Cicero Avenue north of 167th Street = 45 MPH

Posted speed limit on Cicero Avenue south of 167th Street = 45 MPH

Posted speed limit on 167th Street east of Cicero Avenue = 45 MPH

Posted speed limit on 167th Street west of Cicero Avenue = 35 MPH

Existing traffic control devices

Existing traffic control devices, including signal head displays, location, phasing, if the traffic signal is part of a closed loop system or interconnected to adjacent railroad crossing control devices.

(IDOT March 1, 2007 memorandum)

159th Street and Cicero Avenue

All existing signal head displays are incandescent lamps. The City of Oak Forest is committed to upgrading these lamps to IDOT spec, 12-Inch light emitting diode (LED) type. 45 12-inch incandescent lamps and 16 pedestrian signals reside at this intersection. Signal head displays are located on existing mast arms in all directions and on vertical poles.

Traffic phasing presently provides a left hand turn arrow in all four directions, which becomes permissive green. Eastbound has a right turn arrow.

Amber time was stop watched at 4.3 seconds.

It is assumed the intersection is part of a timing scheme for the Cicero Avenue corridor. No interconnection with any railroad signal exists.

Lane widths: LHT, Thru, RHT below lane number.

Note these dimensions are prior to current construction and major overhaul of the intersection.

Direction	Lane 1 LHT	Lane 2 LHT	Lane 3 Thru	Lane 4 Thru	Lane 5 Thru/RHT	Lane 6 RHT	Lane 7 N/A
NB	12.4 ft	N/A	11.9 ft	N/A	13.4 ft	N/A	N/A

SB	10.8 ft	N/A	12.1 ft	N/A	13.1 ft	N/A	N/A
EB	11.9 ft	N/A	11.5 ft	N/A	12.1 ft	N/A	N/A

167th Street and Cicero Avenue

All existing signal head displays are incandescent lamps. The City of Oak Forest is committed to upgrading these lamps to IDOT spec, 12 inch light emitting diode (LED) type. 58 12 inch incandescent lamps 12 8", and zero pedestrian signals reside at this intersection. Signal head displays are located on existing mast arms in all directions and on vertical poles.

Traffic phasing presently provides a left hand turn arrow in all four directions, which becomes permissive green. EB and NB have right turn arrows.

Amber time was stop watch timed at 4.3 seconds.

It is assumed the intersection is part of a timing scheme for the Cicero Avenue corridor. No interconnection with any railroad signal exists.

Lane widths: LHT, Thru, RHT below lane number.

Direction	Lane 1 LHT	Lane 2 LHT	Lane 3 Thru	Lane 4 Thru	Lane 5 Thru/RHT	Lane 6 RHT	Lane 7 N/A
NB	10.8 ft	N/A	11.10 ft	12.9 ft	N/A	13.5 ft	N/A
WB	11.6 ft	N/A	12.2 ft	11.1 ft	N/A	11.6 ft	N/A

NB traffic on Cicero Avenue at 159th Street

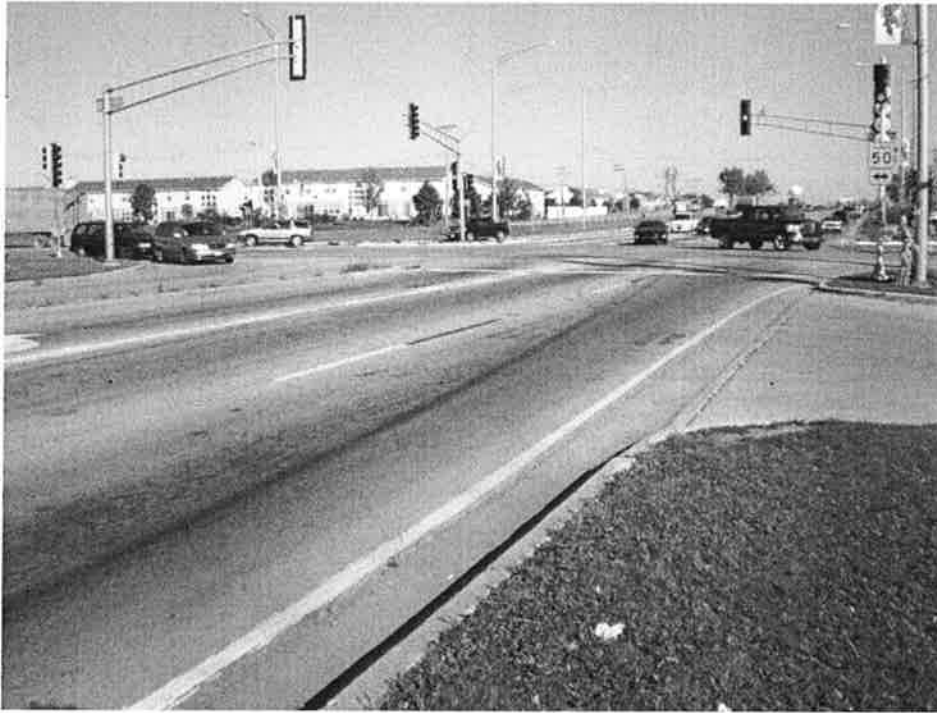

SB traffic on Cicero Avenue at 159th Street

WB traffic on 159th Street at Cicero Avenue

PHOTOS – 167th Street and Cicero Avenue

EB traffic 167th Street at Cicero Avenue

NB traffic Cicero Avenue at 167th Street

SB traffic on Cicero Avenue at 167th Street

WB traffic on 167th Street at Cicero Avenue

Bicycle and Pedestrian Conditions

Information concerning bicycle and pedestrian conditions at the intersection.
(IDOT March 1, 2007 memorandum)

No bike lanes exist at either intersection.

159th Street and Cicero Avenue has pedestrian signals. There are no pedestrian signals at 167th Street and Cicero Avenue.

Letter of Concurrence from Roadway Authority

A letter of concurrence for the use of RLR Cameras from a representative from the roadway authority having jurisdiction of the intersection local roadway.

(IDOT March 1, 2007 memorandum)

All four legs of the intersections of 159th Street and Cicero Avenue and 167th Street and Cicero Avenue are IDOT controlled roads. There is no other city or county jurisdiction involved. Therefore, this item does not apply.

Notes

DISCLAIMER: The motor vehicle crash data referenced herein was provided by the Illinois Department of Transportation. Any conclusions drawn from analysis of the aforementioned data are the sole responsibility of the data recipient(s). Additionally, for coding years 2015 to present, the Bureau of Data Collection uses the exact latitude/longitude supplied by the investigating law enforcement agency to locate crashes. Therefore, location data may vary in previous years since data prior to 2015 was physically located by bureau personnel.

Notes

DISCLAIMER: The motor vehicle crash data referenced herein was provided by the Illinois Department of Transportation. Any conclusions drawn from analysis of the aforementioned data are the sole responsibility of the data recipient(s). Additionally, for coding years 2015 to present, the Bureau of Data Collection uses the exact latitude/longitude supplied by the investigating law enforcement agency to locate crashes. Therefore, location data may vary in previous years since data prior to 2015 was physically located by bureau personnel.
